We are engaged in manufacturing and exporting high-quality Rubber and Plastic Products. We specialise in Extrusion and Molding parts for various industries.

About Us

Established in the year **2004**, We “**Maharashtra Polymer Products**” is one of the leading manufacturer and exporter of a wide range of Extruded & Molded Rubber Components. Our products include Rubber Profiles, Silicone Transparent Tubes, etc. These are widely appreciated for their Ozone Resistance, Dimensional accuracy, High tolerance, and Longer functional life.

We are established under the able guidance of our Managing Partner **Mr. Sajjan Varma**, who has with him extensive experience of 38 years in Rubber Industry. Under his mentorship, a diligent team works towards ensuring a smooth and efficient production process and achieving a qualitative finish in the end component range. Our team includes engineers, quality manager, specialists in finance and research and development experts, and semi-skilled workers. They help us in manufacturing our range with ease and deliver them within 8 to 10 days of the commencement of the order.
